MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter called as the 'MOU') is entered into on this the DAY OF NAME OF MONTH Two Thousand and Fifteen (DATE IN NUMERALS), by and between

ALDER COLLEGE
NAME AND ADDRESS OF INSTITUTION, THE FIRST PARTY represented herein by its Name of Competent Authority / Representative (hereinafter referred as 'First Party', the institution which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

AND

ALL INDIA COMPUTER SAKSHATA MISSION (AICSM)
NAME AND ADDRESS OF INDUSTRY, THE SECOND PARTY, and represented herein by its Zonal / Divisional Head, Name of Competent Authority / Representative, (hereinafter referred to as 'Second Party', company which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

(First Party and Second Party are hereinafter jointly referred to as 'Parties' and individually as 'Party') as

WHEREAS:

A) First Party is a Higher Educational Institution named,
(i) **NAME OF INSTITUTION ALDER COLLEGE**

B) First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.

C) The Parties intent to cooperate and focus their efforts on cooperation within area of Skill Based Training, Education and Research.

D) Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interests.

E) **AICSM** – Name of Industry – , the Second Party is engaged in Business, Manufacturing, Skill Development, Education and R&D Services in the fields of **Computer Education** and services under the industry concerned - - and related fields

F) **AICSM** – Name of Industry – , the Second Party is promoted by promoter name Group; Address and background of the Company.

G) Give related information, its branches, and dimensional information about the industry concerned with whom the MoU is sworn.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERE TO AGREE AS FOLLOWS:

Page 2 of 5

- 2.4 **Research and Development:** Both Parties have agreed to carry out the joint research activities in the fields of **NAME OF INDUSTRY SPECIALIZATIONS, ACTIVITIES AND SERVICES** -- *Computer Education*
- 2.5 **Skill Development Programs:** Second Party to train the students of First Party on the emerging technologies in order to bridge the skill gap and make them industry ready.
- 2.6 **Guest Lectures:** Second Party to extend the necessary support to deliver guest lectures to the students of the First Party on the technology trends and in house requirements.
- 2.7 **Faculty Development Programs:** Second Party to train the Faculties of First Party for imparting training as per the industrial requirement considering the National Occupational Standards in concerned sector, if available.
- 2.8 **Placement of Trained Students:** Second Party will actively engage to help the delivery of the training and placement of students of the First Party into internships/jobs; and will facilitate placements for at least 50% of the students. The Second Party will itself absorb at least 10% percentage of the trained students.
- 2.9 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programmes on the terms specified herein
- 2.10 There is no financial commitment on the part of the *Alder College* **NAME OF INSTITUTION**, the First Party to take up any programme mentioned in the MoU. If there is any financial consideration, it will be dealt separately.

CLAUSE 3 INTELLECTUAL PROPERTY

- 3.1 Nothing contained in this MOU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

CLAUSE 4 VALIDITY

- 4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period *AICSM* **Name of Industry**, the Second Party, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of *AICSM* **Training Partner** or **Name of Industry**, the Second Party after termination of this Agreement by way of communication, correspondence etc., shall not be construed as an extension of this MOU
- 4.2 Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of Termination, both parties have to discharge their obligations

CLAUSE 5 RELATIONSHIP BETWEEN THE PARTIES

- 5.1 It is expressly agreed that **First Party** and **Second Party** are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations or create any obligation or liability, expressed or implied on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

Music Certificate of completion

Activity:

2019- 2020

1. Computer Course: Diploma in Computer Applications

MOU:

 (A National Computer Literacy Program)
An Autonomous Institution Regd. Under Govt. of India, N.C.T New Delhi.
An ISO Certified Organization

 AICSM
All India Computer Literacy Mission
KOHIMA CENTRE

Head Office: 96, 11nd Floor, Kalawati Paliwal Market, Gumanpura, Kota (Raj), India. (Ph)+91-744-2392007, (Tel): +91941335343, E-mail: rjits@aicsm.com, Web site: www.aicsm.com

Ref. No: RD/Reg2020/2201/No.01 Date: 22nd Jan' 2020

Memorandum of Understanding (MOU)

AICSM Kohima Centre
Kohima Nagaland.
&
Alder COLLEGE
Kohima, Nagaland
[College]

I hereby confirm their intent to enter into an understanding for Registration in Diploma in Computer Application to broaden the horizon of learning for students beyond the board/university curriculum with the objective of enhancing employability of the students.

The DCA - Diploma program (6 months) provides the learner a solid base in the information technology domain.

The Modules includes in DCA are:

1. **IT Fundamental**
2. **Microsoft Office Package**
 - a. Microsoft Word
 - b. Microsoft Excel
 - c. Microsoft PowerPoint
 - d. Microsoft Office Outlook
 - e. Microsoft Office Access
3. **HTML**

Under this program, AICSM Kohima Centre will offer to the students of the College, the following programs:

Course Name:	Diploma in Computer Application
Course Duration:	6 months
Certificate Title:	"Diploma in Computer Application"

 (A National Computer Literacy Program)
An Autonomous Institution Regd. Under Govt. of India, N.C.T New Delhi.
An ISO Certified Organization

 AICSM
All India Computer Literacy Mission
KOHIMA CENTRE

Head Office: 96, 11nd Floor, Kalawati Paliwal Market, Gumanpura, Kota (Raj), India. (Ph)+91-744-2392007, (Tel): +91941335343, E-mail: rjits@aicsm.com, Web site: www.aicsm.com

Ref. No: RD/Reg2020/2201/No.01
The following are the broad terms of understanding: Date: 22nd Jan' 2020

1. Commercial Terms:

- a. College will charge the following Registration fees from the students of the college:

COURSE NAME	Registration FEES (For College)
Diploma in Computer Application	Rs 4000/-

- b. College will pay to AICSM Kohima Centre as per Annexure-A per student for the above mentioned course.
- c. Number of students: maximum of 50 (Fifty) students initially to be trained for the above mentioned course.
- d. **Payment Terms:** As per Annexure-A

2. Training Program:

We will run the above mentioned programs for all the bonafide students nominated by the college. The training will be delivered by professionally trained Instructors. Lead by program coordinator, and will be delivered 2-hours-per-day & 3-days in a week with a capacity of 50 students per batch. There will be 2 (two) batches conducted at any given point of time.

3. **Scheduling:** It is College's responsibility to provide and enabling schedule 50 students per batch.

4. **Instructors:** Institution will depute the necessary number of instructors for training or if the college in particular providing the instructor, the institute will pay the required salary.

5. Quality Systems:

- a. **Feedback:** It is our endeavor to ensure that the training sessions are effective and received well by the students. We will conduct periodic feedback surveys using a mutually agreed feedback questionnaire to measure this.
- b. **Attendance Reports:** We will provide attendance reports for sessions conducted by it after completion of course.

6. **Courseware:** Institution will distribute courseware to the students as applicable.

7. **Certificate:** Institution will provide a Diploma Certificate entitled "Diploma in Computer Application" at the end of the program to each student completing the course.

8. **Alder College, Kohima** will allow AICSM Kohima Centre to use its name and / or logo with pre-approved endorsement quotes and / or visuals in any marketing communications and collateral, however, subject to a prior intimation and approval from Alder College, of the exact nature and instance of such use. Similarly, Alder College can refer to this alliance in their marketing communications and collateral subject to prior intimation to AICSM Kohima Centre on the exact nature and instance of

such use and obtaining an approval from AICSM Kohima Centre for the same. Each party agrees that the usage of the trademark and trade name by the other is only for the limited purpose as envisaged in this clause and does not grant any rights to either party to use the trade mark / trade name of the other for any other purpose.

9. Term and Termination: The initial term of the agreement is valid for 6 months only from the Date of MOU Signed in.

10. Force majeure Notwithstanding any Item contained in this MOU, neither Party shall be held responsible for actions beyond their control (e.g. natural calamities, Law and order situation and so on) and no compensation shall be claimed by either party from other nor shall it be paid.

11. Arbitration In case of dispute arising out of or related to any the clauses contained in the MOU, it would be attempted to resolve the same bilaterally.

12. Confidentiality: This document is confidential. Neither party may disclose the terms of this document to a third party without the written permission of the other.

NOTE: your share pattern as:
(1) 20% share if candidates <= 29
(2) 30% share if candidates >= 30 to 50
(3) 35% share if candidates > 51

Delivery process and payment terms

Alder College, through its duly authorized representative, who would be responsible for complete co-ordination and interaction with AICSM Kohima Centre, will provide a list of all the regular enrolled students who will be undergoing the program(s) to be delivered by Alder College. The list shall reach AICSM Kohima Centre at least 1-week before the commencement of Batch. AICSM Kohima Centre will create batches and inform Alder College representative of the service execution as per schedule.

Project Activity:

DIPLOMA IN COMPUTER APPLICATION (6 MONTHS)
In collaboration with **ALDER COLLEGE, KOHIMA**

PROJECT

TOPIC: PROJECTOR
Date of Submission: 9th March 2020

Submitted to:
RUOKUOVINUO
Teacher in charge

Submitted by:
SINZENLO TEP

ACKNOWLEDGMENT

Through this project work I came to learn about the thing I've been seeing the whole time but didn't care to know what it is; and its working – *'The projector'*. I am truly thankful to Ms Ruokuovinuo, teacher in charge for entrusting me with the topic. With efforts and research, it has helped me broaden my knowledge on the subject.

I would also like to thank AICSM Kohima for going to the farthest extent by reaching to students of Alder College with its computer literacy Mission and helping us obtain the important and required certificate- *'Diploma in Computer Application'* within the college campus itself.

Introduction

Projector or image projector is an optical device that projects an image (or moving images) onto a surface, commonly a projection screen. Most projectors create an image by shining a light through a small transparent lens, but some newer types of projectors can project the image directly, by using lasers. A virtual retinal display, or retinal projector, is a projector that projects an image directly on the retina instead of using an external projection screen.

The most common type of projector used today is called a video projector. Video projectors are digital replacements for earlier types of projectors such as slide projectors and overhead projectors. The newest types of projectors are handheld projectors that use lasers or LEDs to project images. Their projections are hard to see if there is too much ambient light. Movie theatres used a type of projector called a movie projector, nowadays mostly replaced with digital cinema video projectors.

The projector is been extensively used in almost every aspects of life- educational, political, religious, business, concerts, etc. It has definitely made diplomacy and learning easier and attractive. In the following chapters we shall learn what a projector is, types of projector, its working, and advantage.

Types of a Projector

On the basis of its display property, Projectors can be classified in three types. They are:

Cathode Ray Tube (CRT)

Liquid Crystal Display (LCD)

Digital Light Processing (DLP)

Cathode Ray Tube (CRT)

A CRT projector is basically a video projecting device. It uses a tiny cathode ray tube which has high-brightness for image generation. A Lens is kept in front of the CRT face which focuses the image and enlarges it onto a big projection screen. A CRT projector focuses on the image or video by its lenses to project it on screen. These images are processed with help of three separate coloured (red, green and blue) CRT tubes.

Fig. Cathode Ray Tube

CRT projectors are not portable as they are huge in size and heavy in weight. Their electricity consumption is also high because of three light guns. At initial stage, it may be difficult and tricky to set up a CRT projector, but the users say that a CRT projectors have a brilliant and outstanding picture quality. People say that these projectors are nevertheless than newer technologies and are compatible with new improvement.

Liquid Crystal Display (LCD)

The meaning of Liquid Crystal Display is approximately clear from its name. The word LCD resembles two states of matter, the liquid and the solid. A Liquid Crystal Display uses liquid crystal to project an image or object.

Fig. LCD Projector

These types of display panel are generally used in computer, Laptops, TVs, portable video games and cell phones. Displays in LCD technology are much thinner as compared to CRT technology.

Digital Light Processing (DLP)

Digital Light Processing (DLP) is a video innovation made by Texas Instruments that is utilized for front and back projection units. DLP is used in both back and front projections. It is regular for back projection in TVs and also utilized in front projectors for units intended for organizations and classrooms.

Fig. DLP Projectors

A DLP comes in two noteworthy structures i.e. 1 chip DLP and 3 chip DLP. Digital Light Processing makes utilization of micro mirrors called a Digital Micro mirror Device to reflect light and shading onto a screen. These micro mirrors are situated in a semiconductor chip and are little. Most of the DLP chips are manufactured by Texas Instruments.

Working of a projector

A projector is an optical gadget that projects a picture (or moving images) onto a surface, usually a projection screen. Most projectors create a photo through projecting a bright light via a small lens. However, some newer types of projectors can project the image directly by using the usage of lasers.

Fig. How Projector Works

A digital retinal display, or retinal projector, is a projector that projects a photograph at once on the retina as a substitute of using an external projection screen.

Now, Pico Projectors are also in great demand as they are very small (handheld) in size and offers high quality image.

Applications of a Projector

In Classrooms

Projectors are used in schooling area for describing a topic. With the aid of a projector, videos or photograph become more enjoyable and children can easily learn by fun way. Further, we can easily zoom-in or zoom-out the image to clear the vision and to search minor points.

In Companies

Projectors are used in big MNC's and enterprises for meeting, presentation and conference purposes.

At Home

Projectors are even used as home theatres that permit you to see the movie or any serial on a massive display with a first-rate sound nice, which makes you feel like you are staring at live.

Advantages of Projector

Large Picture Size

Front projectors generate the largest viable photo size. You can use them to create very large display screen experience of a business film theatre in your own home. Most projectors produce stunning pictures at sizes of 90" to 120" diagonal, which is far large than something you can get with flat screen TVs or rear-projection TVs.

Best Alternative for Large Screen Television

A projector is a cheaper substitute for a 60" plasma TV. The projected picture is typically very bright and projectors can be used with some of the room lights on.

Low Cost

Front projectors can be the least high-priced alternative for big display screen video in your home. Some projectors are constructed for devoted domestic theatre and they have now dropped below \$1,000, this price makes a good deal; less steeply priced than flat screen TVs or rear-projection TVs.

Given the low price of many entry-level projectors, this is the least expensive way to get a big screen experience at your home. Though you may have to attach an additional speaker, yet the experience you get is much better compared to price.

Space Saving

A small projector set on a rear shelf or bookcase or on the ceiling takes up no floor space in the room. When not in operating mode, it is hardly visible.

2020 - till date

Value Added were suspended due to Covid-19 and yet to resume.
